## PERENNIALS FOR FALL PLANTING

It is well known that some perennials such as Oriental Poppies must be planted in the fall when dormant. It is our contention, based upon years of experience, that many others (especially Spring flowering sorts) do best when transplanted in the fall thus enabling them to become established before blooming time. Due to the unfavorable growing season just past which featured disastrous floods, our list is much shorter than we had anticipated and so early ordering is therefore suggested. All plants are field grown and are freshly dug just prior to shipment thus insuring your receiving vigorous plants. Prices, unless otherwise specified, are 40¢ each or 2 of same variety for 75¢. Before ordering be sure to read "Conditions of Sale" at bottom of last page.

## ORIENTAL POPPIES

The Oriental Poppy (*Papaver Orientale*) has no rival in the spring in producing masses of color. The list below includes the finest to be had in each color classification.

<u>BARR'S WHITE</u> - Large pure white with purplish black spots.	50¢ each
<u>BEAUTY OF LIVERMORE</u> - Fine dark crimson with black blotches.	50¢ each
<u>CHEERIO</u> - A very distinctive new variety. The flowers are pink with crimson blotches in the base of the cup.	65¢ each
<u>CRIMSON POMPON</u> - Deep crimson, pompon-like fully double flowers. The first double poppy in a real dark red shade.	75¢ each
<u>GLOWING EMBERS</u> - deeply crinkled cup shaped flowers of medium red.	50¢ each
<u>HELEN ELIZABETH</u> - Large La-France pink flowers without dark spots. Considered to be the finest pink by many growers.	65¢ each
<u>HENRI CAYEUX</u> - Old rose shading to burgundy. Color shows up best when grown in light shade	50¢ each
<u>JOYCE</u> - Charming soft red flowers on long stems	50¢ each
<u>LULU A. NEELEY</u> - Medium sized flowers of a brilliant oxblood red.	50¢ each
<u>MRS. PERRY</u> - A very fine apricot orange variety.	50¢ each
<u>RIDGEWOOD BEAUTY</u> - One of the most sought after of all Oriental Poppies for it is so fluffily ruffled.	\$1.00 each
<u>SALMON GLOW</u> - Fine double salmon-orange flowers. Does not spread wildly as did the old Olympia.	65¢ each
<u>SASS PINK</u> - One of the finest and loveliest pink poppies. Color is soft flesh pink with gray mauve centers.	50¢ each
<u>SNOWFLAME</u> (Plant Patent 365) - Easily one of the most sensational of all. The lower half of flowers is white while the upper half is flame orange.	75¢ each

## DAISIES

<u>ALASKA</u> - Handsome plant with large, glistening white blooms from June on.	
<u>CONQUEROR</u> - A splendid midseason large single daisy.	
<u>ELDER'S IMPROVED</u> - The standard Memorial Day daisy. No garden should be without this fine early cut flower.	
<u>DIENNER'S DOUBLES</u> - A splendid mixture grown from originator's seeds. Included are all sorts of fancy daisies such as chiffons, zinnia-flowered, and aster flowered. There are no ordinary singles in this group as they were rogued out when the plants bloomed. For the unusual in daisies you need look no further.	45¢ each, 3 for \$1.25
<u>MOUNT SHASTA</u> - Pure white fully double flowers with high crested centers are produced on long stems from late June until fall. The successor to Esther Read.	50¢ each, 3 for \$1.35

## THE DELIGHTFUL DIANTHUS

We feel that there are few groups of hardy perennials that can match the Dianthus in attractiveness, versatility and durability.

<u>CAESIUS SPLENDENS</u> (CHEDDAR PINK) - a prolific bloomer with myriads of fragrant rose pink flowers in evidence in May and June.	
<u>CRIMSON KING</u> - (CARNATION) A very dependable everblooming double crimson red cluster pink. Fine for cutting and for the border.	45¢ each
<u>LATIFOLIUS BEATRICE</u> - A fine companion to Crimson King although not as tall. Double flowers of lovely pure pink.	45¢ each
<u>LITTLE JOE</u> - A new, attractive low growing gem with glaucous blue-green foliage and large crimson flowers.	50¢ each

- LOVELINESS - Deeply fringed and frilled flowers of an attractive mauve lavender shade which have an enticing fragrance are produced plentifully over a long blooming season.
- PLUMARIUS LITTLE JOCK HYBRIDS - An attractive low growing strain of Spice pinks. Neat grey green mounds. Flowers white to bright pink.
- ROSE CUSHION - A real gem which has virtually disappeared from many lists. The rose pink flowers are freely produced from compact mounds thus giving the general effect of a pin cushion. 50¢ each
- SAMMY - A rare form of the above in which the flowers are double. 60¢ each  
Quantity very limited.
- WHITE LACE - A lovely pure white form of Dianthus Loveliness described above. 50¢ each  
Quantity very limited.

#### MISCELLANEOUS PERENNIALS

- AQUILEGIA LEMON QUEEN - Long spurred yellow Columbine.
- AQUILEGIA SNOW QUEEN - Lovely long spurred pure white Columbine.
- ARABIS ALPINA SNOWCAP - A very early blooming rock plant with pure white flowers produced in dense masses in April and May.
- CARNATION GRENADIN - The everpopular garden carnations. Red, white or pink.
- DAISIES - See special list.
- DIANTHUS - See separate listing.
- DELPHINIUM LAMARTINE - Large gentian blue flowers with white bees.
- GEUM MRS BRADSHAW - Large double flowers of fiery orange red in bloom intermittently all summer long.
- GEUM LADY STRATHEDON - Beautiful golden yellow counterpart of the above.
- HELIANTHUS LODDON GOLD - The so called double yellow perennial Dahlia. Fully double bright golden yellow flowers are carried on long stems during late summer and fall months. Fine for cutting. 50¢ each
- HEUCHERA BRIZOIDES (Coral Bells) Dainty spires of bell like flowers of lovely soft rose pink.
- LINUM FLAVUM NANUM COMPACTUM - (Yellow Flax) One of the finest of all rock plants. Compact plants with transparent yellow blooms.
- LYTHRUM MORDEN'S PINK - A new pure pink variety. 50¢ each
- LYTHRUM THE BEACON - Long spikes of clear rosy red flowers three feet long make a real show in the summer garden. 50¢ each
- NEPATA MUSSINI (Ground Ivy) - Of dwarf compact habit, producing masses of lavender flowers during the spring months.
- PHYSOSTEGIA ROSY SPIRE - (False Dragonhead) Colorful spikes of rosy red flowers during summer months.
- PHYSOSTEGIA SUMMER SNOW - A new pure white false dragonhead. 50¢ each
- PLATYCODON NEW SHELL PINK - The lovely new pure shell pink form of the Chinese Bellflower which is proving so popular. 50¢ each
- POPPIES - See separate list.
- RUDBECKIA THE KING - Large starlike, deep crimson-red flowers born on long stiff stems.
- RUDBECKIA WHITE LUSTRE - Stately plant with large pure white flowers similar to the above. 50¢ each
- TUNICA SAXIFRAGA (Coatflower) - Rose pink flowers in spring and summer in airy profusion on low plants thus giving effect of a dwarf Baby's Breath.
- VERONICA RUPESTRIS - An excellent rock plant growing 3-4" high. The thickly matted deep green foliage is hidden by myriads of dainty spikes of blue flowers.
